Spirit Mountain trained instructors will provide ski lessons on the beginner hill for those new to the sport up to mastering the beginner hill. Only after demonstrating the skills needed to go beyond the beginner hill (controlled stopping and turning) will a lift ticket be given to the student.

Spirit Mountain staff will also provide a "Safety Talk" in the chalet prior to beginning the day. Helmet safety, "The Responsibility Code", chairlift safety, and what to expect on the field trip will be covered during this talk.

Lift ticket, ski rental (+helmet), and lessons included.

Parents/guardians are responsible for signing in to an existing or creating an account for themselves and participating children to sign the waiver prior to arrival.

Please have the [online waivers](#) filled out prior to February 24th.

What about snowboarding? This program's focus is on skiing. If a student has their own snowboard equipment and can demonstrate controlled carving sufficiently to pass the beginner hill test, we can allow them to snowboard on the WGFT. But, if they do not have equipment or do not pass the ability test, they will be required to join their classmates in the skiing for the day.
