**SCHOOL DISTRICT OF SOLON SPRINGS**

8993 E Baldwin Avenue - Solon Springs, WI 54873

## **COVID Testing at Solon Springs School**

We have great news! Solon Springs School District will have a testing vendor on site Monday - Friday, 8 am-4 pm for any **staff, student or family of a student** that would like to have a test administered due to being symptomatic, close contact or if any family feels they would like their student tested on a weekly basis.

Solon Springs School District is one of the few that have decided to have this service offered onsite for access. Rapid testing is available and results will be available 15-20 minutes after administration.

The consent form for COVID testing will be sent home on the first day of school with the emergency forms that need to be returned by **all students**. If you feel your student may need any testing in the future, please fill out that form so it is readily available for our Health Screener to view if a situation arises and/or if testing is desired. Testing **WILL NOT** be completed unless a consent form is filled out.

If testing is done weekly per parent's choice, a phone call will not be made home to inform you of administration of the test, only if positive or inconclusive results.

If a student is symptomatic, a phone call will be made home by our Health Screener and choosing to have testing done can be made at that time. A consent form will need to be filled out before the test will be administered.

If you have any questions, please feel free to contact our Health Screener:
